After shakedown Journeys by Rail in Texas, the first scheduled America's Trains Journey will depart from Fort Worth, on 'Circle America' all-inclusive Journeys throughout the US and into Canada; ending around in early 2018.

Circle America capacity is limited to 10 passengers in five Master Suites.

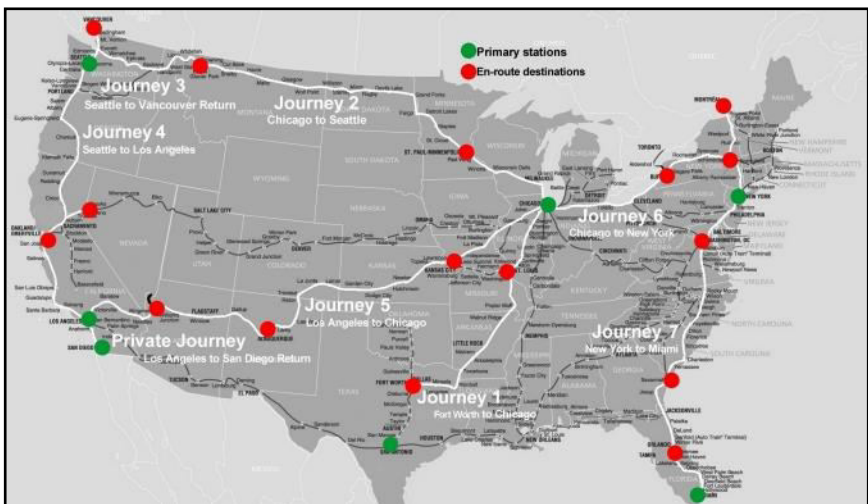

Itineraries are for eight days, except Journey 1 is for 5 and Journey 3 takes 4 days. Based on availability, Circle America passengers may be able to enjoy shorter (two night minimum) vacations by boarding and disembarking at any Amtrak Station.

There are also unscheduled Journeys between Los Angeles and San Diego.

All-inclusive Journeys by Rail include fine dining, all types of beverages, exquisite personalized service, on board pleasure and impeccable hospitality.

An endless choice of activities are available during layovers at en-route destinations.

Circle America Journey routes are briefly described in the following map.

A portion of the TV series "Tracks" will be filmed on Circle America Journeys.

Fares for eight day Journeys by Rail are well below average prices of comparable luxury train vacation fares in other countries (there are no others in the USA).
